2. SW add media content to their website to create an engaging visitor experience
3. SWBAT embed html code into the website editor
4. SW manage their own electronic portfolio website

### Technology used for this project:

- Computers
- Weebly
- YouTube
- Social Media
- Snipping Tool

### \*\*\*\* 10 Page Limit\*\*\*\* Suggested Structure

### 21st Century Skills Standards covered in this project:

- 9.1.A

## Unit Goal: Website "CONTENT" Using the Weebly online editor to upload content to personal websites

### Project Description:

This rotation will concentrate on adding relevant content to your previously designed website.

Remember that this is a student/school centered website, and although it will include a personal profile with hobbies and personal interests, it should focus on your growth as a student and be an electronic portfolio of your work and learning.

The link below is a very good example of a site put together by Mr. Rohaly. Please be sure to view AND REVISIT this sample site to assist and inspire you as you look to make your own website great. - Have Fun!

SAMPLE SITE: <http://drohaly.weebly.com>

**Site Checklist:** Use Element Widget to include each of the following on your site:

- Contact Form.
- Map (MRHS, Vacation Destination, etc.)
- YouTube video.
- Slide Show of photos.
- Document widgets to display student work/ projects.
- A completed "About Me" page with photo and bio.
- Use the Column tool and divider bars to organize content.
- Social Media Links... YouTube, Email, Facebook, Twitter etc.
- Use a Button to create a link to an outside website.
- All site pages should have relevant custom banner photos
- Each class must have relevant content displayed.

**Your site URL must be re-submitted (by link) to EDMODO.**

**Be sure to PUBLISH your site each day after your work!**

### Page Structure Tree
